Chrome/143.0.7499.192 | WCAG 2.1

EXECUTIVE SUMMARY

This report provides procurement-ready evidence that automated WCAG-based accessibility checks were executed at a specific point in time.

22 Issue Types   **209** Occurrences

- Critical 64
- Serious 60
- Moderate 52
- Minor 33

SCOPE & WHAT WAS CHECKED

- ✔ Structure & semantics
- ✔ Headings & landmarks
- ✔ Colour contrast
- ✔ Images & alternative text
- ✔ Forms & input labels
- ✔ Keyboard navigation
- ✔ ARIA usage
- ✔ Link purpose & clarity
- ✔ Error handling & messaging
- ✔ Responsive / zoom behaviour

Scan Summary

187	842	22,341
Pages scanned	Pages discovered	Total checks evaluated

Scan runtime: 45 minutes 25 seconds

Scope Evidence (Sample URLs)

- https://www.greenvalley.gov.au/
- https://www.greenvalley.gov.au/about
- https://www.greenvalley.gov.au/about/council-members
- https://www.greenvalley.gov.au/about/mission-and-values
- https://www.greenvalley.gov.au/about/history
- https://www.greenvalley.gov.au/about/annual-reports
- https://www.greenvalley.gov.au/services
- https://www.greenvalley.gov.au/services/waste-collection

ComplyWeb

RISK OVERVIEW

This section highlights the highest-risk issues and explains likely user impact. Technical evidence and references are provided in the Technical Evidence Index.

Insufficient colour contrast   CRITICAL (34 total)

Why this matters

Low-contrast text reduces readability and can prevent users with low vision from accessing content. Navigation labels, instructions, and content may be difficult to read.

34 occurrences

Across 14 unique pages

https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community

Typical remediation

- Adjust foreground/background colours to meet WCAG AA contrast ratios.
- Check contrast in all states (hover/focus/disabled).

Missing alternative text for images   CRITICAL (19 total)

Why this matters

Images without alternative text are not conveyed to screen reader users. Users may miss information that is communicated visually.

19 occurrences

Across 9 unique pages

https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/community/events
https://www.greenvalley.gov.au/news

Typical remediation

- Add meaningful alt text for informative images.
- Mark decorative images appropriately (empty alt or presentation).

Links without discernible text

SERIOUS (27 total)

Why this matters

Links without accessible names are difficult to use with assistive technologies. Users may not understand link purpose or be unable to navigate effectively.

27 occurrences

Across 12 unique pages

https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community

Typical remediation

- Ensure each link has meaningful visible text or an accessible name.
- Avoid empty links or icon-only links without labels.

Buttons without accessible names

CRITICAL (11 total)

Why this matters

Buttons without accessible names are ambiguous or unusable for screen reader users. Users may not know what a button does or may be unable to operate controls.

11 occurrences

Across 6 unique pages

https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/contact
https://www.greenvalley.gov.au/forms

Typical remediation

- Provide visible text or aria-label/aria-labelledby on icon-only buttons.
- Ensure the accessible name matches the visible intent.

Incorrect heading order

SERIOUS (16 total)

Why this matters

Heading structure is used by assistive technologies to understand and navigate content. Users may have difficulty skimming pages and understanding page structure.

16 occurrences

Across 8 unique pages

https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/about
https://www.greenvalley.gov.au/services

Typical remediation

- Ensure heading levels progress logically (H1 > H2 > H3, etc.).
- Use headings for structure, not styling.

METHODOLOGY & LIMITATIONS

The following methodology was used to produce this evidence artefact. Results are subject to the limitations noted below.

Methodology & Scope

- Automated accessibility testing using axe-core with WCAG 2.0/2.1 Level A and AA criteria.

- Same-origin, breadth-first crawl starting from the supplied URL.

- Maximum 300 pages scanned, 30-second per-page axe timeout, 60-minute hard runtime cap.

- JavaScript rendering enabled in headless Chromium.

Limitations

- Automated testing cannot detect all accessibility issues.

- Manual review and user testing remain necessary for full conformance validation.

- Results reflect a point-in-time assessment and may change as the site changes.

Pages Discovered:	842
Pages Scanned:	187
Pages Skipped:	655
Caps Hit:	Page cap: no, Time cap: no
Application Version:	1.5.0
Node.js Version:	22.14.0

Evidence sampling caps may apply (max 3 per issue, global cap 120).

SEVERITY OVERVIEW

A total of 22 distinct issue types were identified, with 209 individual occurrences across all scanned pages. The distribution by severity level is shown below.

209 total occurrences

across 22 distinct issue types

Critical	64
Serious	60
Moderate	52
Minor	33

64 critical issues were identified, requiring priority attention.

Critical: Blocks access entirely for some users.
Serious: Significant barriers to access or usability.
Moderate: Creates difficulty but does not block access.
Minor: Low-impact; best practice improvement.

TECHNICAL EVIDENCE INDEX

color-contrast

CRITICAL

Ensures the contrast between foreground and background colors meets WCAG 2 AA minimum contrast ratio thresholds.

Occurrences: 34

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community
https://www.greenvalley.gov.au/rates
https://www.greenvalley.gov.au/news

Ref: Axe rule documentation

image-alt

CRITICAL

Ensures <img> elements have alternate text or a role of none or presentation.

Occurrences: 19

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/community/events
https://www.greenvalley.gov.au/news
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/about

Ref: Axe rule documentation

button-name

CRITICAL

Ensures buttons have discernible text.

Occurrences: 11

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/contact
https://www.greenvalley.gov.au/forms
https://www.greenvalley.gov.au/services/parking-permits
https://www.greenvalley.gov.au/rates/payment-options

Ref: Axe rule documentation

link-name

SERIOUS

Ensures links have discernible text.

Occurrences: 27

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community
https://www.greenvalley.gov.au/news
https://www.greenvalley.gov.au/about

Ref: Axe rule documentation

heading-order

SERIOUS

Ensures the order of headings is semantically correct.

Occurrences: 16

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/about
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community
https://www.greenvalley.gov.au/planning

Ref: Axe rule documentation

html-has-lang

SERIOUS

Ensures every HTML document has a lang attribute.

Occurrences: 4

Sample URLs:
https://www.greenvalley.gov.au/forms
https://www.greenvalley.gov.au/forms/freedom-of-information
https://www.greenvalley.gov.au/planning/zoning-maps
https://www.greenvalley.gov.au/rates/payment-options

Ref: Axe rule documentation

ComplyWeb

document-title

Ensures each HTML document contains a non-empty <title> element.

Occurrences: 5

Sample URLs:
https://www.greenvalley.gov.au/forms
https://www.greenvalley.gov.au/forms/freedom-of-information
https://www.greenvalley.gov.au/planning/zoning-maps
https://www.greenvalley.gov.au/rates/payment-options
https://www.greenvalley.gov.au/services/pet-registration

Ref: Axe rule documentation

aria-hidden-focus

SERIOUS

Ensures aria-hidden elements are not focusable nor contain focusable elements.

Occurrences: 8

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community/events
https://www.greenvalley.gov.au/news

Ref: Axe rule documentation

aria-required-attr

MODERATE

Ensures elements with ARIA roles have all required ARIA attributes.

Occurrences: 9

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/contact
https://www.greenvalley.gov.au/forms
https://www.greenvalley.gov.au/services/parking-permits
https://www.greenvalley.gov.au/rates/payment-options

Ref: Axe rule documentation

aria-allowed-attr

MODERATE

Ensures an element's role supports its ARIA attributes.

Occurrences: 6

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/community

Ref: Axe rule documentation

ComplyWeb

duplicate-id

MODERATE

Ensures every id attribute value is unique.

Occurrences: 14

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/about
https://www.greenvalley.gov.au/community
https://www.greenvalley.gov.au/news

Ref: Axe rule documentation

label

MODERATE

Ensures every form element has a label.

Occurrences: 8

Sample URLs:
https://www.greenvalley.gov.au/contact
https://www.greenvalley.gov.au/contact/feedback
https://www.greenvalley.gov.au/forms
https://www.greenvalley.gov.au/forms/freedom-of-information

Ref: Axe rule documentation

frame-title

MODERATE

Ensures <iframe> and <frame> elements have an accessible name.

Occurrences: 4

Sample URLs:
https://www.greenvalley.gov.au/community/events
https://www.greenvalley.gov.au/planning/zoning-maps
https://www.greenvalley.gov.au/contact

Ref: Axe rule documentation

aria-valid-attr-value

MODERATE

Ensures all ARIA attributes have valid values.

Occurrences: 5

Sample URLs:
https://www.greenvalley.gov.au/
https://www.greenvalley.gov.au/services
https://www.greenvalley.gov.au/rates

Ref: Axe rule documentation

form-field-multiple-labels

MODERATE

Ensures that every form field does not have multiple label elements.

Occurrences: 3

Sample URLs:
https://www.greenvalley.gov.au/contact
https://www.greenvalley.gov.au/forms/permit-application

Ref: Axe rule documentation

autocomplete-valid

MODERATE

Ensures the autocomplete attribute is correct and suitable for the form field.

Occurrences: 3

Sample URLs:
https://www.greenvalley.gov.au/contact
https://www.greenvalley.gov.au/forms/complaint-form

Ref: Axe rule documentation

WCAG / STANDARDS MAPPING

The following WCAG criteria were triggered during testing, ordered by total occurrences.

WCAG Criterion / Tag	Occurrences
WCAG 2.0 Level A	139
4.1.2 Name, Role, Value	81
cat.name-role-value	46
WCAG 2.0 Level AA	39
cat.color	34
1.4.3 Contrast (Minimum)	34
1.3.1 Info and Relationships	32
best-practice	31
cat.text-alternatives	28
cat.keyboard	28
2.4.4 Link Purpose (In Context)	27
cat.aria	20
1.1.1 Non-text Content	19
cat.semantics	19
cat.parsing	14
4.1.1 Parsing	14
cat.forms	14
2.4.2 Page Titled	5
cat.language	4
3.1.1 Language of Page	4
